

Así se vería el código JavaScript al ejecutarlo con node en el bash del subsistema de Linux.

```
xoarsi@DESKTOP-HE7U9AF: /mnt/c/WINDOWS/system32$ node main.js
My pokemon pikachu greets you! :)
My pokemon pikachu says: "Heey explorer!"
My pokemon bulbasaur greets you! :)
My pokemon bulbasaur says: "Heey explorer!"
My pokemon charmander greets you! :)
My pokemon charmander says: "Heey explorer!"
My pokemon squirtle greets you! :)
My pokemon squirtle says: "Heey explorer!"
My pokemon charizard greets you! :)
My pokemon charizard says: "Heey explorer!"
xoarsi@DESKTOP-HE7U9AF: /mnt/c/WINDOWS/system32$
```
